**Islamic Insurance** - Aly Khorshid - 2004

Some Muslims believe insurance is unnecessary, as society should help its victims. Muslims can no longer ignore the fact that they live, trade and communicate with open global systems, and they can no longer ignore the need for banking and insurance. Aly Khorshid demonstrates how initial clerical apprehensions were overcome to create pioneering Muslim-friendly banking systems, and applies the lessons learnt to a workable insurance framework by which Muslims can compete with non-Muslims in business and have cover in daily life. The book uses relevant Quranic and Sunnah extracts, and the arguments of pro- and anti-insurance jurists to arrive at its conclusion that Muslims can enjoy the peace of mind and equity of an Islamic insurance scheme.

**Islam in South Africa** - Abdulkader Tayob - 1999

"Judicious juggling of insider and outsider perspectives. [Tayob] brings real knowledge and experience of South African Islam. . . . Anyone interested in religion in the South African context as well as those interested in Islam in different contexts should be interested in this book."--Rosalind I. J. Hackett, University of Tennessee Until now, researchers on Islam in Africa have paid little attention to the continent's southern tip. In the first English-language study of the subject, Abdulkader Tayob examines the Islamic institutions of South Africa, tracing their development over the last 200 years, from the first European colony in the 17th century through British colonialism and apartheid. Beyond the institutions, Tayob also examines the sermons of South Africa's Imams as expressions of the country's Islamic faith. He argues that the sermons function both as symbols of the Word of God and as venues for contextual interpretations of the Qu'ran. The unusual character of South Africa, he maintains, has not only shaped the country's Islamic institutions but has also helped to define its Muslim identity. For outsiders to either Islam or South Africa, Tayob interprets the symbols of Islam, the overly politicized dimensions of South African Islamic life, and the sacred spaces within each community. Writing as an "insider" to the faith, he also reveals a rich history of Muslim institutions previously inaccessible to non-Moslems. Abdulkader I. Tayob is associate professor in the Department of Religious Studies at the University of Cape Town, where he teaches Islamic studies and the history of religions. He is the author of Islamic Resurgence in South Africa: The Muslim Youth Movement.

**Political Thought in Islam** - Nelly Lahoud - 2005-01

This book is a study of political thought in Islam from the viewpoint of the history of ideas and the relevance of these ideas to contemporary Arabic political discourse. The author examines the use of the classical Islamic tradition (turath) and its religious and philosophical components by the three dominant Arabic political discourses: the Islamists, apologists and intellectuals. The book analyzes the different assumptions advanced by these discourses and the way they propose to apply or restore the turath in the present. Exploring connections between the medieval Islamic tradition and current debates, this book is essential reading for advanced students and researchers of Islam and political thought.

**The Muslim Brotherhood** - Barbara H. E. Zollner - 2009

The Muslim Brotherhood is one of the most influential Islamist organisations today. Based in Egypt, its network includes branches in many countries of the Near and Middle East. Although the organisation has been linked to

analysis of the Muslim Brotherhood during the years of al-Hudaybi's leadership, and how he sought to steer the organization away from the radical wing, inspired by Sayyid Qutb, into the more moderate Islamist organization it is today. It is his legacy which eventually fostered the development of non-violent political ideas. During the years of persecution, 1954 to 1971, radical and moderate Islamist ideas emerged within the Brotherhood's midst. Inspired by Sayyid Qutb's ideas, a radical wing evolved which subsequently fed into radical Islamist networks as we know them today. Yet, it was during the same period that al-Hudaybi and his followers proposed a moderate political interpretation, which was adopted by the Brotherhood and which forms its ideological basis today.

**On Love** - Rusmir Mahmutcehajic - 2007

This rare and important contribution to the field of Islamic studies, philosophy, and comparative religion achieves a twofold objective. First, it draws from a broad and authoritative well of sources, especially in the domain of Sufism, or Islamic mysticism. The scholarship is impeccable. Second, it is an in-depth meditation on the relationship between love and knowledge, multiplicity and unity, the example of the Prophet Muhammed viewed as Universal Man, spiritual union, heart and intellect, and other related themes--conveyed in fresh, contemporary language. The book is as much a work of Sufism as it is a book about Sufism. Many of these themes have a universal appeal for students of mysticism; consequently, there are distinct resonances with other traditions, especially within certain schools of Christian mysticism dominated by the language of love. In our day, when the divisions between many Muslims and many Christians have broadened into chasms of suspicion and fear, books such as this one are especially important for the help they can offer in bridging these rifts. The capacity of scholars to understand these two religions, which stem from the same Abrahamic source, is of the utmost significance, and the best approach to better understanding may be through the mystical traditions, which tend to reflect more tolerance and to recognize a potential for seeing unity in a multiplicity of perspectives. This work conveys the beauty at the heart of the Islamic tradition in a language devoid of technical terminology.

**Anubis** - Ibrahim Koni - 2005

A Tuareg youth ventures into trackless desert on a life-threatening quest to find the father he remembers only as a shadow from his childhood, but the spirit world frustrates and tests his resolve. For a time, he is rewarded with the Eden of a lost oasis, but eventually, as new settlers crowd in, its destiny mimics the rise of human civilization. Over the sands and the years, the hero is pursued by a lover who matures into a sibyl-like priestess. The Libyan Tuareg author Ibrahim al-Koni, who has earned a reputation as a major figure in Arabic literature with his many novels and collections of short stories, has used Tuareg folklore about Anubis, the ancient Egyptian god of the underworld, to craft a novel that is both a lyrical evocation of the desert's beauty and a chilling narrative in which thirst, incest, patricide, animal metamorphosis, and human sacrifice are more than plot devices. The novel concludes with Tuareg sayings collected by the author in his search for the historical Anubis from matriarchs and sages during trips to Tuareg encampments, and from inscriptions in the ancient Tifinagh script in caves and on tattered manuscripts. In this novel, fantastic mythology becomes universal, specific, and modern.

**Ikhwan Al-Safa'** - Godefroid de Callatay - 2005

"The Ikhwan al-Safa' or Brethren of Purity were a highly secretive group of tenth-century Shi'ite thinkers, their identities remaining unclear even today. Renowned for creating the legendary Rasa'il Ikhwan al-Safa', an encyclopedia of philosophical sciences, they proposed a coherent intellectual system that sought to reconcile human reasoning with prophetic revelation. With a spirit of tolerance uncommon to the era and an exceptional eclecticism of sources, their encyclopedia was popular and yet highly contentious, often characterized as heretical by Islamic theologians and leaders throughout history." "This fascinating survey provides a clear, objective and innovative introduction to the Brethren of Purity and their encyclopedic project, showing its critical place in the history of Arabic science, philosophy, and literature. Containing an illuminating guide to further reading and full of insight on the interpretation of the great work, this study will appeal to readers of all backgrounds."--BOOK JACKET.

**The Arab Conquest of the Western Sahara** - H. T. Norris - 1986

For centuries after the first Arabs passed through North Africa, the presence of Arabic culture in the western Sahara was limited to scholars and mystics. Those few who spoke Arabic and practised Islam left the traditional society largely undisturbed. Then in the Middle Ages came a small band of southern Yemeni tribesmen, who came to dominate the desert trade routes linking Africa with the Mediterranean. Their descendants, the Awlad Hassan, imposed themselves on the native Berbers and introduced a new society, religion and language. Drawing on numerous sources including travellers and historians such as Ibn Battutah and Leo Africanus, plus local historians steeped in the traditions of oral history, the author examines how the tribes of the western Sahara responded to the arrival of the Arabs, particularly during the 13th and 17th centuries. Written by renowned experts, the five books that comprise "The series of Arabic Islamic studies" feature topics on Arabic and Islamic studies. From a description of the Arabian incese trade, to a sociological study of Islam and its beliefs, this series aims to offer authoratative insights into the history, and contemporary situation, of Arabia. -- Publisher description.

**The Arab Conquest of the Western Sahara** - H. T. Norris - 1986

For centuries after the first Arabs passed through North Africa, the presence of Arabic culture in the western Sahara was limited to scholars and mystics. Then in the Middle Ages came a small band of southern Yemeni tribesmen, who came to dominate the desert trade routes linking Africa with the Mediterranean. **The Alevis in Turkey** - David Shankland - 2003

This is the only volume dedicated to the Alevis available in English and is based on sustained fieldwork in Turkey. The Alevis now have an increasingly high profile for those interested in the diverse cultures of contemporary Turkey, and in the role of Islam in the modern world. As a heterodox Islamic group, the Alevis have no established doctrine. This book reveals that as the Alevi move from rural to urban sites, they grow increasingly secular, and their religious life becomes more a guiding moral culture than a religious message to be followed literally. But the study shows that there is nothing inherently secular-proof within Islam, and that belief depends upon a range of contexts.
